

# BIG BOMB IN THE TOWN OF MACLEOD'S STREETS

## BARTRUAK ROCKS MON- TANA AND ALBERTA

Helms, Mont., June 26.—Residents of the Gallatin Valley, the apparent cause of the earthquake which took place four times and twice on Saturday night and Sunday, remained out in the open space today looking back at about \$500,000 worth of ruins, the aggregate cost of the tremble.

It was a whimsical earthquake. No one was killed. Nearly a score of buildings cracked and fell. There were half a dozen landladies, a creek extending at least a mile from Manhattan to Three Forks, a distance of ten miles, remained as one of the scars caused by the quake. A railway tunnel was caved in and an avalanche at Deer Park covered 500 feet of trail under earth and rocks 100 feet deep. This was caused when a cliff 800 feet high, topped and fell.

The quakes began about 6:25 Saturday night. Thousands of persons at Butte, Great Falls, Livingston, Helena and other cities and towns were thrown into their beds and rushed call of buildings. The shocks continued intermittently until after ten o'clock.

**Tremor Rocks S. Alberta**  
Southern Alberta danced to the tune of two distinct tremors on Saturday evening.

Quake shocks were felt in Lethbridge at 6:28 and again about 6:45. The first shock was quite distinct, lasting more than 30 seconds.

Shocks were felt in Southern Alberta and Southern Saskatchewan to the west from the mountains to the plains.

**Felt in Many Places**  
At Burdett, Ravensburg and Eastend, shocks in C.P.R. stations were caused by the tremors. Many men calling Lethbridge headquarters were shocked.

Three Forks residents counted forty-one distinct shocks. Hundreds of men were working at the earth's surface trembled. The quake was felt throughout the underground workings there was damage, necessitating the evacuation of the mines.

The quakes were felt in the Lethbridge at 6:28 and again about 6:45. The first shock was quite distinct, lasting more than 30 seconds.

## THE SCOTLAND OF AMERICA

Just as England for 500 years has been drawing the brains of Scotland into the political and industrial affairs of the northern kingdom, so in United States, today, draughts heavily upon the brains of Canada.

The Scotman is one of the rulers of the world. With a modicum of peroxide under his belt and a shaver under his arm, he has conquered every corner of the earth and claimed a "Mac" on every street corner.

You find him running shop, racing on the Pearl River, running trading posts on the Gulf Coast, running parliament in England and financial houses in United States. He is everywhere and usually on time.

The United Kingdom of Great Britain and Ireland owes more, perhaps, to the industrial and governing genius of Scotmen than to any other factor.

And what has happened in Britain, for 500 years, is being duplicated, in North America. Canada, settled with almost pure British stock, is beginning to supply the brains for this continent. United States premier railway builder, some of her most outstanding political leaders, one of her greatest inventors, her ambassadors, her bankers, her financial men and the research workers in her industrial laboratories have been drawn from this Dominion.

Canada is becoming the Scotland of North America. If half the Canadian brains that are now working on the problems of other nations were applied to Canadian problems, this Dominion would be in a golden age of prosperity.

## CANADA'S ARCTIC CLAIMS

OWASO claims all the land between Canada and the Arctic Circle and intends to keep it, in spite of Washington and the whole world.

That is the proper spirit. That northern land within the Arctic Circle is rich in oil and minerals. In 20 or 100 years, when means are found to get these riches out, all that territory will be invaluable.

But all this soil on the part of the Canadian Rockies. Here the Arctic land into the Dominion is somewhat hard to understand in view of the fact that for close on to 20 years, Ottawa has consistently neglected to bring even the Western Canadian provinces into the Dominion of Canada.

The wealth of Western Canada is a known quantity. It is something that can be looked out, measured and evaluated. It exists in the present.

The wealth of the Arctic is an unknown quantity. It is, at least, half a century ago.

If two years ago, Ottawa had manifested half the anxiety to annex the Arctic territory, this Dominion would have been ten times as prosperous today.

Let us hang on to the Arctic by all means. But first let us unite with one another under some reasonable transportation charges.

Canada in the prairies and Canada in the West is to be disappointed with one another under some reasonable transportation charges.

# BUY AT HOME SPEND YOUR MONEY IN MACLEOD

Purchases representing thousands of dollars are lost to us, to our trade, to our clerks and employees, to our laborers and artisans, to all the people of Macleod who exist on the products of their work. This misquity, if spent at home, would help to recreate Macleod financially, give a wider field of activities in business, would be helpful to every resident of this town.

If we purchased regularly from local merchants, this money would circulate in Macleod in a welcome manner. Our merchants merit our patronage; it is to our interest, and the duty of all of us to encourage the local merchant. He is one of us, he lives among us, he has the right to be encouraged by us, he is anxious to have our custom, and to give us satisfaction. We should under all circumstances give him preference, price, for price, quality for quality, and hence always the price that our local merchant asks is, if we compare the quality, just as cheap as that of the outside merchant.

Never purchase merchandise by catalogue from foreign houses before assuring yourself that you cannot procure the same articles, of the same quality (and frequently of better quality) at the same price from your local merchant.

## RED CROSS AT CALGARY EXHIBITION

In the coming Historical Pageant  
and Parade which will form the  
grand opening of the Calgary  
Exhibition on July 6th, the Alberta  
Division of the Red Cross Society  
is featuring two floats. These are  
representative of the Society's work  
in War and in Peace. A great deal  
of thought and time is being spent  
to make these displays interpretive  
of the place Red Cross has occu-  
pied in the world during the years  
1914-18, and the place it occupies  
today. It is expected that many  
hundreds of visitors will call at the  
Red Cross Booth at the Fair, where  
Height and Weight Demonstrations  
will be carried on daily by the Red  
Cross Nurses.

Another interesting feature will  
be the Red Cross Tent in the  
grounds where the Radio Lady will  
tell Health Stories for children at  
certain hours daily. A cordial in-  
vitation is extended to all the little  
listeners-in, over F.A.C. to call at  
the Tent and meet the Children's  
Radio Lady.

## WHO IS IT?

A suburban housewife relates  
amusingly this conversation be-  
tween her new maid and the cook  
maid last night.

"I'm well," said Hilda. "I like my  
cook. We get creamed celery,  
cucumber, plum, elastic balls and  
a house."

"What's a 'house'?" Hilda. "The  
porcelain coat ornament."

"Oh, a bell rings. You put a  
thing to your ear and say, 'Hello,  
and someone says, 'Hello,' and you  
say, 'Hello!'"—Continued.

REVOLUTION IN GREECE

Paris, June 25.—Dispatches from  
Sofia report Greece in the throes  
of a revolution and say the Greek  
fleet has joined the movement.

The dispatches say a military  
government has been formed under  
General Pangalos and has occupied  
all civil and military institutions.

Demand Premier's Resignation  
Sofia, June 25.—The news-  
paper Independent announces that  
the Sofia garrison has decided to  
demand the immediate resignation of  
Premier Michalakopoulos because of  
his alleged inefficiency in office and  
for the purpose of forming a military  
government presided over by  
General Pangalos.

Vermon Proclamation  
Sofia, June 25.—Revolutionary  
officers have occupied public and rail  
way stations here, it is reported to-  
day. Press censorship has been es-  
tablished. A revolutionary proclama-  
tion has been issued.

A military communique says the  
revolutionary movement now in  
control throughout Greece. The  
Greek fleet under Admiral Haddji-  
dimitris, former minister of marine,  
has joined the revolution.

Leaders of the revolution tele-  
graphed the president of the Greek  
republic: "We proclaim an over-  
throw of the government. We will  
hold the cabinet responsible for any  
bloodshed."

The communique of the revolu-  
tionists said their movement was  
needed nowhere in Greece.
